

Environmental requirement sheet for suppliers (version: 1)

1. The supplier is obliged to comply with all current environmental laws and regulations.
2. The supplier should take measures to minimise the adverse environmental impact of its activities throughout the product life cycle, from conception to utilisation.
3. The supplier is obliged to encourage its suppliers and subcontractors to develop and improve environmental programmes in their operations.
4. The supplier should promote and support the implementation of technologies that reduce greenhouse gas emissions, reduce the consumption of energy resources, and other environmentally friendly actions.
5. The supplier is obliged to reduce the consumption of raw materials and to minimise waste and pollution.
6. All materials and products supplied to Safilin sp. z o.o. must not contain substances prohibited in the supplier's country, the European Union, and the country into which the product manufactured by Safilin sp. z o.o. is finally delivered.
7. The supplier of any mixtures and substances is obliged to provide Safilin sp. z o.o. with a current safety data sheet in Polish, at the latest on the day of delivery, unless the safety data sheet has already been provided earlier and has not been updated.
8. When dealing with chemical substances or mixtures, the supplier is obliged to label the packaging in Polish in accordance with the applicable legislation.
9. The means of transport used by the supplier must be maintained in good technical condition, have an up-to-date inspection, and meet the emission standards prescribed for the vehicle.
10. If a supplier has not already done so, it should consider becoming certified to the requirements of ISO 14001, which Safilin sp. z o. o. encourages.

[approved and signed by the Managing Director].
